DETAILED ACTION

Claims the applicant has canceled 1 – 9 and 19.

Allowable Subject Matter

Claims 10 – 18 and 20 – 27 are allowed.

The following is an examiner's statement of reasons for allowance: As to claims 10 – 18 and 20, the prior art fails to show a cable locating system wherein a load impedance is connected between the respective tone conductor and a tone signal return path for discharge of current from the tone conductor; and an active component responsive to variations in a voltage in the load impedance to maintain a maximum amplitude of the current discharged at a substantially constant value. These features taken together with the other limitations of the claim renders the claims allowable over prior art.

As to claims 21 – 27, the prior art fails to show a cable locating signal wherein each termination being arranged to limit an amplitude of the discharged current to a maximum value which is sufficient for cable location, thus ensuring that branches furthest from the tone source have adequate current for location purposes and the terminations being arranged such that the maximum value of the discharged current is same at each termination. These features taken together with the other limitations of the claim renders the claims allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art of Record

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Koster (3,980,840) is cited for its disclosure of a conductor identification arrangement for a cable restoration system.

Kruchwy et al. (6,411,074) is cited for its disclosure of a pulse width modulated cable signal injecting apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reena Aurora whose telephone number is 571-272-2263. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, E. Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
